RFP 2905 – Addendum 1

Statewide Contract for Data Communications Services

Item 1: Numbering for Section 4.1 – Frame Relay

The numbering skips from subsection 4.1.4 – Frame Relay Burst Capabilities to subsection 4.1.6 – Bilateral Frame Relay. The Pricing Sheet has section number 4.1.5 blacked out to reflect this omission.

Item 2: Corrections to Section 5.1 – Maintenance

Section 5.1.2.1 should read:

For major outages requiring the services of a technician, the technician must be dispatched within four (4) hours for locations along the Wasatch Front (Ogden to Provo), and within six (6) hours for other state locations.

Section 5.1.2.3 should read:

For outages not requiring an onsite technician, the Vendor must initiate remote testing within four (4) hours of receiving notification of the outage. The Vendor must contact ITS within 24 hours with information about the problem isolation and resolution, or with information about a proposed solution.

Item 3: Updated Pricing Spreadsheets in Attachment IV

Please download the complete new set of the revised Excel Pricing Spreadsheets if you have previously downloaded the original set prior to Wednesday, 4/10/02. The spreadsheet set has been revised and updated and this version must be used for your proposal response. The spreadsheet may be accessed at www.purchasing.utah.gov Select the menu option “Current Bids”; scroll down the alpha-numeric list until reaching LW2905; click on the Excel document.

Please note: Verbal Questions and Answers from the Pre-Proposal Conference and Written Questions received from potential offerors and the State’s Answers, will be forthcoming in a future Addendum(a).
